

# About Event Hosts

## ElectricalCEU.com

ElectricalCEU.com has been providing in-class and on-line continuing education technical training for the electrical trades since 2006. At this time, ElectricalCEU.com has state approved on-line CEU curriculum in more than 20 states. ElectricalCEU.com has more than 20 classes listed in some states like Washington. In Alaska, ElectricalCEU.com has four approved courses for the electrical trades earning between 4-24 CEU hours. ElectricalCEU.com will conduct Code Update classes at this training event. Learn more at their website: [www.ElectricalCEU.com](http://www.ElectricalCEU.com).

## ABC of Alaska

The Alaska Chapter of the Associated Builders and Contractors, Inc. provide training materials, resources, and programs for member organizations. They have craft training, on-line training, and apprenticeship training programs. ABC's membership represents all specialties within the AK construction industry and is comprised primarily of merit based firms that perform work in the industrial and commercial sectors of the industry. The AK team will assist in the administration of CEU credits. Learn more at their website: [www.abcalaska.org](http://www.abcalaska.org).

## SAFE Consulting Services

SAFE Consulting Services began in 2004 with the straight-forward goals of providing the very best engineering, drafting, and consulting services to clients requiring excellence in electrical design & engineering, fire alarm and security systems design & engineering. SAFE is the preferred provider of engineered technology solutions to the multi-use commercial market place in the Pacific Northwest, Inland Northwest, and Alaska. Learn more at their website: [www.safeconsulting.biz](http://www.safeconsulting.biz).

## Potter Electric Signal Co.

Potter brand automatic fire alarm systems are a favorite among the electrical trades for projects throughout the United States. Potter will conduct manufacturer installer certification training for system installers at this training event. Certification training courses also earn CEU hours which will be credited to the participants. Learn more at their website: [www.pottersignal.com](http://www.pottersignal.com).

## 2016 Training Alaska Exposition for Electricians, Technicians, & System Designers and featuring an Electronic Security & Fire Alarm Technology Hall

## Event Program

Education - June 9-10, 2016

Fishing - June 11-12, 2016

at

Crowne Plaza Anchorage - Midtown  
109 West International Airport Road  
Anchorage, AK 99518

### Event Hosts:

Training - ElectricalCEU.com, 10011 N Fleetwood St, Spokane, WA 99208  
ABC of Alaska, 1900 W Benson Blvd, Anchorage, AK 99517

Engineering - SAFE Consulting Services, 1800 Bickford Ave, Snohomish, WA 98290

Manufacturing - Potter Electric Signal Co, 5757 Phantom Dr, St Louis, MO 63042

# Event Overview

The 2016 Training Alaska Exposition will be in Anchorage, AK in June of 2016. This location and timing are perfect for gathering electricians, technicians, and system designers in the various electrical crafts. Those that gather will experience:

- Technical training on commercial automatic fire detection systems and applicable model codes
- Alaska State Fire Marshall approved training for Class I-B specific certification in compliance with licensure requirements of the State of Alaska
- Practical training on electronic physical security for commercial, municipal, and industrial sites
- National Electrical Code update education in compliance with licensure requirements of the great State of Alaska
- On-site product manufacturers who will be exhibiting best-in-class fire alarm, life safety, access control, intrusion detection, security video surveillance, and networking solutions
- The award of Continuing Education Units (CEU) which comply with Alaska state requirements associated with electrical licensure
- The synergy associated with gathering for focused instruction and learning with industry associates surrounded by great technology, food, and beverages
- The exhilaration of reeling in a king salmon while on a chartered boat on the Little Su
- Training, continuing education units, advanced code and product certifications, industry networking, and fishing are offered **AT NO COST**, only for confirmed and registered participants

The projected attendance is under 150 guests, sponsors, and events hosts. Consider:

- (2) classes, all awarding CEU's
- (10) sponsors and hosts exhibiting their solutions, products, and services
- (2) days of stimulating learning and networking
- (2) days of fishing

# About Event Sponsors

## Event Registration Cost = \$0.00

The event hosts and sponsors have combined to make a NO COST training event possible in Anchorage for electricians, technicians, & system designers engaged in the electrical trades and low voltage systems integration marketplace.

The event hosts provide best-in-class equipment and services to the companies and agencies that are actively engaged in the fire detection, life-safety, and security technologies business. They bring their products, their solutions oriented strategic thinking, and dozens of years of combined experience to Anchorage so as to enable the possibility of a Technology Hall filled with great solutions.

Event hosts and sponsors for the 2016 Training Alaska Expo include:

# Event Schedule, Fishing

## Saturday, June 11, 2016

---

- 3:30am - Gather for fishing departure, GROUP 1  
*Crowne Plaza Meeting Center lobby*
- 4:00am - Shuttle departs for chartered fishing, GROUP 1
- 5:30am - Chartered boat group boards and departs, GROUP 1
  
- 10:30am - Gather for fishing departure, GROUP 2  
*Crowne Plaza Meeting Center lobby*
- 11:00pm - Shuttle departs for chartered fishing, GROUP 2
- 11:00pm - Chartered boat group returns and de-boards, GROUP 1
- 11:30pm - Shuttle returns to Crowne Plaza, GROUP 1
- 12:30pm - Chartered boat group boards and departs, GROUP 2
  
- 4:00pm - Gather for fishing departure, GROUP 3  
*Crowne Plaza Meeting Center lobby*
- 5:00pm - Chartered boat group returns and de-boards, GROUP 2
- 5:30pm - Shuttle returns to Crowne Plaza, GROUP 2
- 5:30pm - Chartered boat group boards and departs, GROUP 3
  
- 10:00pm - Chartered boat group returns and de-boards, GROUP 3
- 10:30pm - Shuttle returns to Crowne Plaza, GROUP 3
- 12:00am - Shuttle arrives back at Crowne Plaza, GROUP 3

## Sunday, June 12, 2016

---

Same as Saturday, June 11, 2016, see above

# Event Highlights

## Course 1 – Alaska State FM I-B Special – Fire Alarm Training (June 9, 2016; 8:00am-4:00pm)

ElectricalCEU.com has been providing on-line CEU earning training and now brings the State of Alaska approved curriculum to a classroom where learning occurs in a more stimulating and informative format including active class participation and interaction. Adrian M Steik, SET, NICET IV, will be providing the instruction and leading the class discussions.

## Course 2 – Potter PFC Series Installer Certification Training (June 10, 2016; 8:00am-4:00pm)

Potter brand automatic fire alarm systems are a favorite among the electrical trades for projects throughout the United States. They are the system of choice for commercial, industrial, multi-tenant retail, multi-tenant residential, and educational developments. This training class is hands on in nature and includes installing and programming a working system while working in pairs while training with Potter's corporate training specialist.

# Event Schedule, Education

## Course 3 – Technology Exhibits &

### Demonstrations (June 9 & 10, 2016; 8:00am-5:00pm)

Nine product manufacturers and industry service providers will be present to demonstrate and discuss their best-in-class solutions for delivering engineering, educational tools, security, life-safety, and technology solutions. On display will be solutions for access control, automatic fire detection and alarm, security video surveillance, network appliances, and more.

## Course 4 – Chartered Fishing (June 11 & 12, 2016; multiple departures daily)

After two days of education, training, and learning, those interested in fishing the Little Susitna River can join in the fun by participating in chartered fishing.

There will be morning and afternoon chartered outings on the Little Su while fishing for King salmon. Attendees that seek to fish will be entered into a raffle whereby the 24 selected via raffle can participate in one chartered fishing session on Saturday or Sunday based on their raffle selection.

Shuttle service will be furnished from hotel to the charter departure location and back.

### Thursday, June 9, 2016

7:30am	-	Check-In, obtain Credential <i>Crowne Plaza Meeting Center lobby</i>
7:30am	-	Classroom open, continental breakfast served
8:00am	-	Class begins, <b>“Alaska State FM I-B Special – Fire Alarm Training”</b> , <i>Borealis Room</i>
8:00am	-	Technology Hall open, product and solution demonstrations, <i>Aurora Room</i>
11:30am	-	Class breaks, lunch served <i>Aurora Room</i>
12:30pm	-	Class resumes <i>Borealis Room</i>
3:00pm	-	Open bar begins, beverages & cocktails <i>Aurora Room</i>
4:00pm	-	Class ends <i>Borealis Room</i>
4:00pm	-	Daily Raffle <i>Aurora Room</i>
5:00pm	-	Technology Hall closes <i>Aurora Room</i>
